## ABOUT US

We are a Korean manufacturer specializing in premium cutlery, rooted in Korean tableware culture.

Through sustainable materials and refined craftsmanship, we create high-quality products for global markets.

## OUR STRENGTHS

**Proven Expertise:** Over a decade of experience in developing and exporting Korean metal cutlery

**Design & Craftsmanship:** Modern reinterpretation of Korean food culture with refined and functional design

**Global Recognition:** Trusted by global partners including MoMA, Merci, and leading retailers worldwide

## PARTNERSHIP IN ACTION

We offer a wide range of cutlery collections, from premium lines to price-competitive products, tailored to each market.

With strong production capability and global export experience, we support our partners from product development to final delivery.

## PRODUCT INFORMATION

### Aurora Cutlery

#### Premium Design with Global Appeal

All stainless steel cutlery with rivets, offering a clean, refined look with subtle detail. Supplied to Merci, with growing popularity among global buyers.

#### Comfort & Premium Value

Designed for a comfortable grip and balanced weight, ensuring ease of use and stable handling. Well-suited for premium gifting and value-driven consumers.

### Caline Cutlery

#### Premium Design with Global Appeal

Stainless steel cutlery with acrylic handles and rivets, offering vibrant color accents and a distinctive look. Supplied to MoMA, with growing popularity among global buyers.

#### Comfort & Premium Value

Designed for a comfortable grip and balanced weight, ensuring ease of use and stable handling. Well-suited for premium gifting and value-driven consumers.

### Kanu Spoon & Chopsticks

#### Modern Korean Spoon & Chopsticks Set

A refined cutlery set with a clean shape and modern finish, suitable for everyday and contemporary dining. Inspired by traditional Korean spoon design, with a smooth finish for durability and long-lasting performance.

#### Design

Slim form paired with a soft-toned handle, adding a subtle touch of color while maintaining a balanced, minimal look.

### Udon Spoon

#### Comfortable Udon Spoon for Everyday Use

Designed for noodle and soup dishes. This spoon features a smooth, rounded head for easy scooping. The gently curved handle provides a comfortable grip.

### Long Tea Spoon

#### Lightweight & Easy-Grip Long Tea Spoon

Designed for comfort, this long spoon features a diamond-shaped handle that fits naturally in your hand for an easy grip.

## ABOUT US

LuxBiome is a Korea-based biotechnology company specializing in microbiome research and AI-driven genomics analysis. Founded as a university spin-off from Chung-Ang University College of Medicine, we focus on developing next-generation microbiome solutions for consumer healthcare, medical food, and innovative therapeutics.

## OUR STRENGTHS

**Proprietary Microbiome Platform**  
AI-powered microbiome and pangenome analysis platform with extensive microbial strain database.

**Scientifically Validated Technology**  
Human clinical study completed for hangover relief and liver protection using patented postbiotic strains.

**Global IP Competitiveness**  
Patents and scientific publications secured across Korea, USA, Europe, and China.

**Industry Collaboration Network**  
Strong partnerships with leading Korean manufacturers, research institutes, and global business partners.

# PRODUCT INFORMATION

**Project Name:** Dr.Lac KYOU

**Product Concept:**

- Based on patented strains that simultaneously decompose alcohol and acetaldehyde
- Next-generation health ingredient providing both hangover relief and liver protection through microbiome technology

**Formulation:** Stick-type powder

**Volume:** 10 sachets per box/4g per sachet

**Shelf Life:** Two years from the date of manufacture

**Directions for Use:** Take 1 sachet mixed with 180 ml of water before or after drinking; additional intake possible if needed ( 1sachet per day)

**Storage:** Store at room temperature, away from direct sunlight

**Target Customers:** Adults seeking effective hangover relief after drinking as well as individuals interested in maintaining liver health through regular daily consumption

**Product Features:**

**NOVELTY**  
Patented microbiome-derived postbiotics scientifically validated to accelerate alcohol and acetaldehyde metabolism and improve hangover-related symptoms, providing comprehensive support for both recovery after drinking and daily liver care

**DIFFERENTIATION**  
Combines rapid support for alcohol and acetaldehyde breakdown with liver protection in a single formulation, supported by proprietary microbiome technology, patented strains, and human clinical evidence.

**SAFETY**  
Uses only ingredients registered under food safety standards.

**SCALABILITY**  
Patents and publications in Korea, USA, Europe, and China for global market expansion.

Distribution

### ABOUT US

ZIO Corporation is a premier F&B manufacturer and exporter, dedicated to delivering high-quality Korean food and alcoholic beverages to the global market. We are manufactured and distributed under strict and hygienic procedures such as ISO, HACCP, FSSC etc.

We're always ready to provide the best products at the most valued prices as a global market trendsetter in the food and beverage industry on behalf of Korea.

### SUSTAINABLE GROWTH

Global demand for K-FOOD and K-ALCOHOL is rapidly expanding, driven by growing interest in convenient meals and low-alcohol fruit soju among younger consumers worldwide. In line with this trend, we have achieved over 65% average annual sales growth in recent years, continuously extending countries' markets from the initial 5 and strengthening our global market presence.

### KEY PRODUCT CATEGORIES

Immerse yourself in ZIO's vibrant world of flavor: From the soulful traditions of Topokki and Japchae to the bold, modern fusion of our Rapokki and Fruit Soju.

**1) Cup Meal Series**

Convenient Korean meals, including Rapokki, Japchae, and Toppokki, are designed from K-food street culture.

**2) Fruit Soju Series**

A range of smooth, fruit-flavored Korean soju products tailored for young generation trends and easy joy of K-alcohol.

## Product Image

## Product Introduction

### Category

Alcoholic beverages

Authentic Korean Fruit Soju

- Lower Alcohol Content & Easy to Drink
- High Market Demand: Fruit Soju is incredibly popular, especially among younger adult consumers (20s–30s) globally. It taps into the trend for lower-alcohol beverages and the global interest in Korean culture (Hallyu/K-Wave).
- Greetings from BITNARI -Taste the Sparkling Spirit of Korea! Korean Liquor
- The global fascination with Korean culture continues, and leading the beverage is the sensationally popular Fruit Flavored Soju! BITNARI, a premium Korean beverage brand, embodies this trend,
- offering a delightful range of high-quality fruit soju meticulously crafted to capture hearts and palates worldwide.

Made by Nature

Name	Haakyong Kim
Position	Head of Global Business
Mobile	+82-10-8687-5789
E-mail	kimhaak@naver.com

**Company Website:** [www.uniquemi.com](http://www.uniquemi.com)

**Main Product:** CENIGIA New Age Cream, CENIGIA Ampoule

**Exporting countries:** USA, Japan, Russia, Dominica Republic etc.

**Product Competitiveness:**

- Patented Jeju Fermentation Technology Ingredients fermented for 100 days in natural Jeju volcanic caves break down nutrients into micro-particles for deep skin absorption — without preservatives or chemical additives.
- Internationally Certified & Multi-Market Proven Products are certified for sale in Korea, USA, Japan, China, Vietnam, Russia, and Thailand. Sold in premium channels including Korean Air, Shilla Duty Free, and The Hyundai Seoul.
- Full Functional Skincare Lineup with Proven Results From anti-aging (CENIGIA) to brightening (Matcha, Reine) and daily sun protection, all products are certified functional cosmetics by the Korean MFDS — with clinical test results in 5 categories for key products.

**Desired Collaboration Process:** Distribution

### ABOUT US

UniqueMi is a Korean natural cosmetics brand founded on proprietary fermentation technology developed at our Jeju Island research lab. We combine precious plant-based ingredients — including wild ginseng, matcha, and Jeju volcanic cave-fermented extracts — with advanced scientific formulation to deliver visible, skin-transforming results.

### OUR STRENGTHS

**Proven Technology:** Patented 100-day natural cave fermentation process that maximizes active ingredient absorption deep into the skin.

**Certified Quality:** Trademark and product certifications registered in Korea, USA, Japan, China, and Vietnam. Carried in Korean Air Sky Shop, The Hyundai Seoul, and Shilla Duty Free.

**Trusted Brand:** Winner of the 2019 Korea Quality Management Award and selected for the government-backed 'Brand K' national representative co-brand program.

### PARTNERSHIP IN ACTION

UniqueMi offers a full range of skincare — serums, creams, toners, cleansing oils, sunscreens, and sheet masks — all formulated without preservatives or harmful additives. We welcome distribution partnerships, OEM collaboration, and retailer sourcing across all markets.

Product Introduction

Product Name

CENIGIA CONCENTRATED NEW AGE CREAM

Category

Skincare / Anti-aging Cream

Description

**CENIGIA Concentrated New Age Cream is a premium anti-aging cream designed to combat daily external stress and genetic aging.**

Key Features:

- Contains ximenynic acid imported from Germany, which protects the skin from oxidative stress and helps improve pigmentation, elasticity, and dullness.
- Formulated with 7 types of peptides — known as "applied Botox" — to improve skin tone and firmness.
- Collagen and hyaluronic acid work together to create resilient, smooth skin. - Patented fermentation technology allows active ingredients (panaginic acid, ximenynic acid, retinol) to penetrate deeply into the skin.
- Prevents fine lines, restores damaged skin, and provides over 24 hours of continuous moisturization. - Certified functional cosmetic for whitening and wrinkle improvement by Korean MFDS.
- Size: 50ml / 1.69 fl.oz.

### 5 Key Ingredients.

#### Hydrolyzed Sponge, Spiculate

The needle-shaped ingredient Hydrolyzed Sponge penetrates the dermis layer of the skin, stimulating it and promoting microcirculation. It helps improve blocked capillaries, facilitates oxygen supply to the cells, and removes dead cells and keratin, thereby aiding in cell regeneration.

#### EXOBIO-SOME (Lactobacillus-derived Exosomes)

Exosomes are nano-sized particles (average 30-150 nm) with a lipid bilayer secreted by cells. They carry proteins, lipids, and nucleic acids inside, delivering messages to surrounding cells — acting as a "biological delivery system."

#### GLUKAN 3M™

Simultaneously enhances moisture and hydration

#### COLLAGEN WATER

Restores wrinkles and elasticity

#### MELITIDE™

Patented Powerful Antibacterial Ingredient

## Product Introduction

### Product Name

**MiniGlam Exobiosome-Shot Ampoule (7 Type)**

### Category

Skincare (Ampoule)

### Description

#### [Product Overview]

The MiniGlam Exobiosome Shot Ampoule is a high-efficacy derma-cosmetic based on 'Skinimalism,' focusing strictly on core efficacies by simplifying complex skincare routines. Recognized for its exceptional quality, it has proudly received the 'SBA Seoul Award for Excellent Product' for two consecutive years (2025-2026).

#### [Core Technology & Strengths]

- Exobiosome Technology: Utilizing a Lactobacillus-derived nano-particle delivery system, it rapidly and deeply penetrates high-performance active ingredients into the dermal layer.
- 0.00 Irritation Index (Clinically Proven): Certified as entirely non-irritating, it guarantees safe daily use even on highly sensitive skin, making it an ideal choice for professional pharmacy channels despite its powerful, aesthetic-grade efficacy.

#### [7 Customized Lineup (7 Types)]

We offer 7 targeted solutions designed to be prescribed based on your ever-changing daily skin conditions:

- PDRN Retinol: Pore tightening and firming anti-aging.
- Vitamin C Glutathione: Powerful brightening and dark spot care for a radiant glow.
- Cica Madecassoside: Rapid soothing and barrier repair for sensitized skin.
- Hyaluronic Acid Panthenol: Eliminates severe inner dryness and locks in moisture.
- Ceramide Rice: Deep nourishing hydration and barrier strengthening for parched skin.
- Niacinamide Bakuchiol: Excess sebum control and smooth skin texture care.
- Peptide Caffeine: Reduces morning puffiness and visibly lifts facial contours.
